## PROFESSIONAL SUMMARY

Passionate Diploma CSE student with strong interest in web development and software engineering. Skilled in creating responsive websites, frontend interfaces, and student management applications using modern technologies. Seeking opportunities to enhance technical and problem-solving skills through real-world projects and internships.

## PROJECTS

### **Smart Report- School Result Management System**

Developed a responsive school result management website with modern UI design for managing student academic records and reports.

### **Personal Portfolio Website**

Designed and developed a personal developer portfolio website showcasing projects, skills, achievements, and contact information with responsive mobile-friendly design.

### **Student Tracker App**

Built an Android application for tracking student performance, attendance, and academic records with Firebase integration.
